Intake

Overview & Orientation to a new way of thinking. Assets in a Digital Space with real world tangibility for liquidity to effect positive change on a planetary scale.

Gaia Digital Trading Platform

in association with ECFX

Digital Assets

Natural Resources: Gold, Gems,
Land Title, Trees, Coal, Rare Earths

Security

Sovereign Layers, Secure Servers,
Encryption and Cold Storage .

Growth

Robotic Trading, Leverage, Credit
Facilities and Liquidity Pool Enhancement

Our team has developed several coins and has been chosen to represent several other coins. This represents a pool of assets that is contracted to St. Germain World Reserve Trust for management for the betterment of the world at large. Our Exchange features primarily gold back goins! These stable coins represent a new era in digital currency that are at the center of our pinwheel, which has hub to spoke interchange with Natural Resource Coins, such as Gaia_Tree Coin, Gaia_Coal Coin and others that represent leveraging value without recovery or harvest of reserves. The leveraging ability funds humanitarian projects. Growth in traditional ways with non-traditional assets as the way of the future - Now!

Digital Assets

Noble Metals

Valuted, In-Ground, under contract or owned.

Virtually in Your Hand

Nearly anything can be placed behind a virtual coin

New Coin Creation

We create your brand of coin

Natural Resources

Bonded Warehouse, In-Ground, under contract or owned.

Profitability

Our teams create value in our platform and network

Existing Coins

Top Coins, Alt-Coins, Tokens.

Smart Contracts

Profit Sharing

▼
We take custodial control of the asset and share in the profits for building the Equity / Liquidity

Management Agreement

▼
A traditional management agreement gives us the authority to enhance the asset and protect it under our sovereign platform.

Termination

▼
Upon written notice we terminate all agreements and return all assets within 72 hours

Positions in Pairing

All things are united. There is not any stand alone coin or asset. Each thing of value is paired with something else of value.

Blockchains

Blockchains track all transactions and have been around much longer than most realize.

It is a digital ledger that records the basic information of all transactions. Smart contracts live within the blockchain and record requirements and fulfillment.

Coin pairing is the same as currency pairing in Forex. We pair our coins with your new coins and create a market. Demand is created by leaving a digital record about the volume of activity.

1988

Bitcoin

The first public coin

Ethereum

The first smart contract blockchain

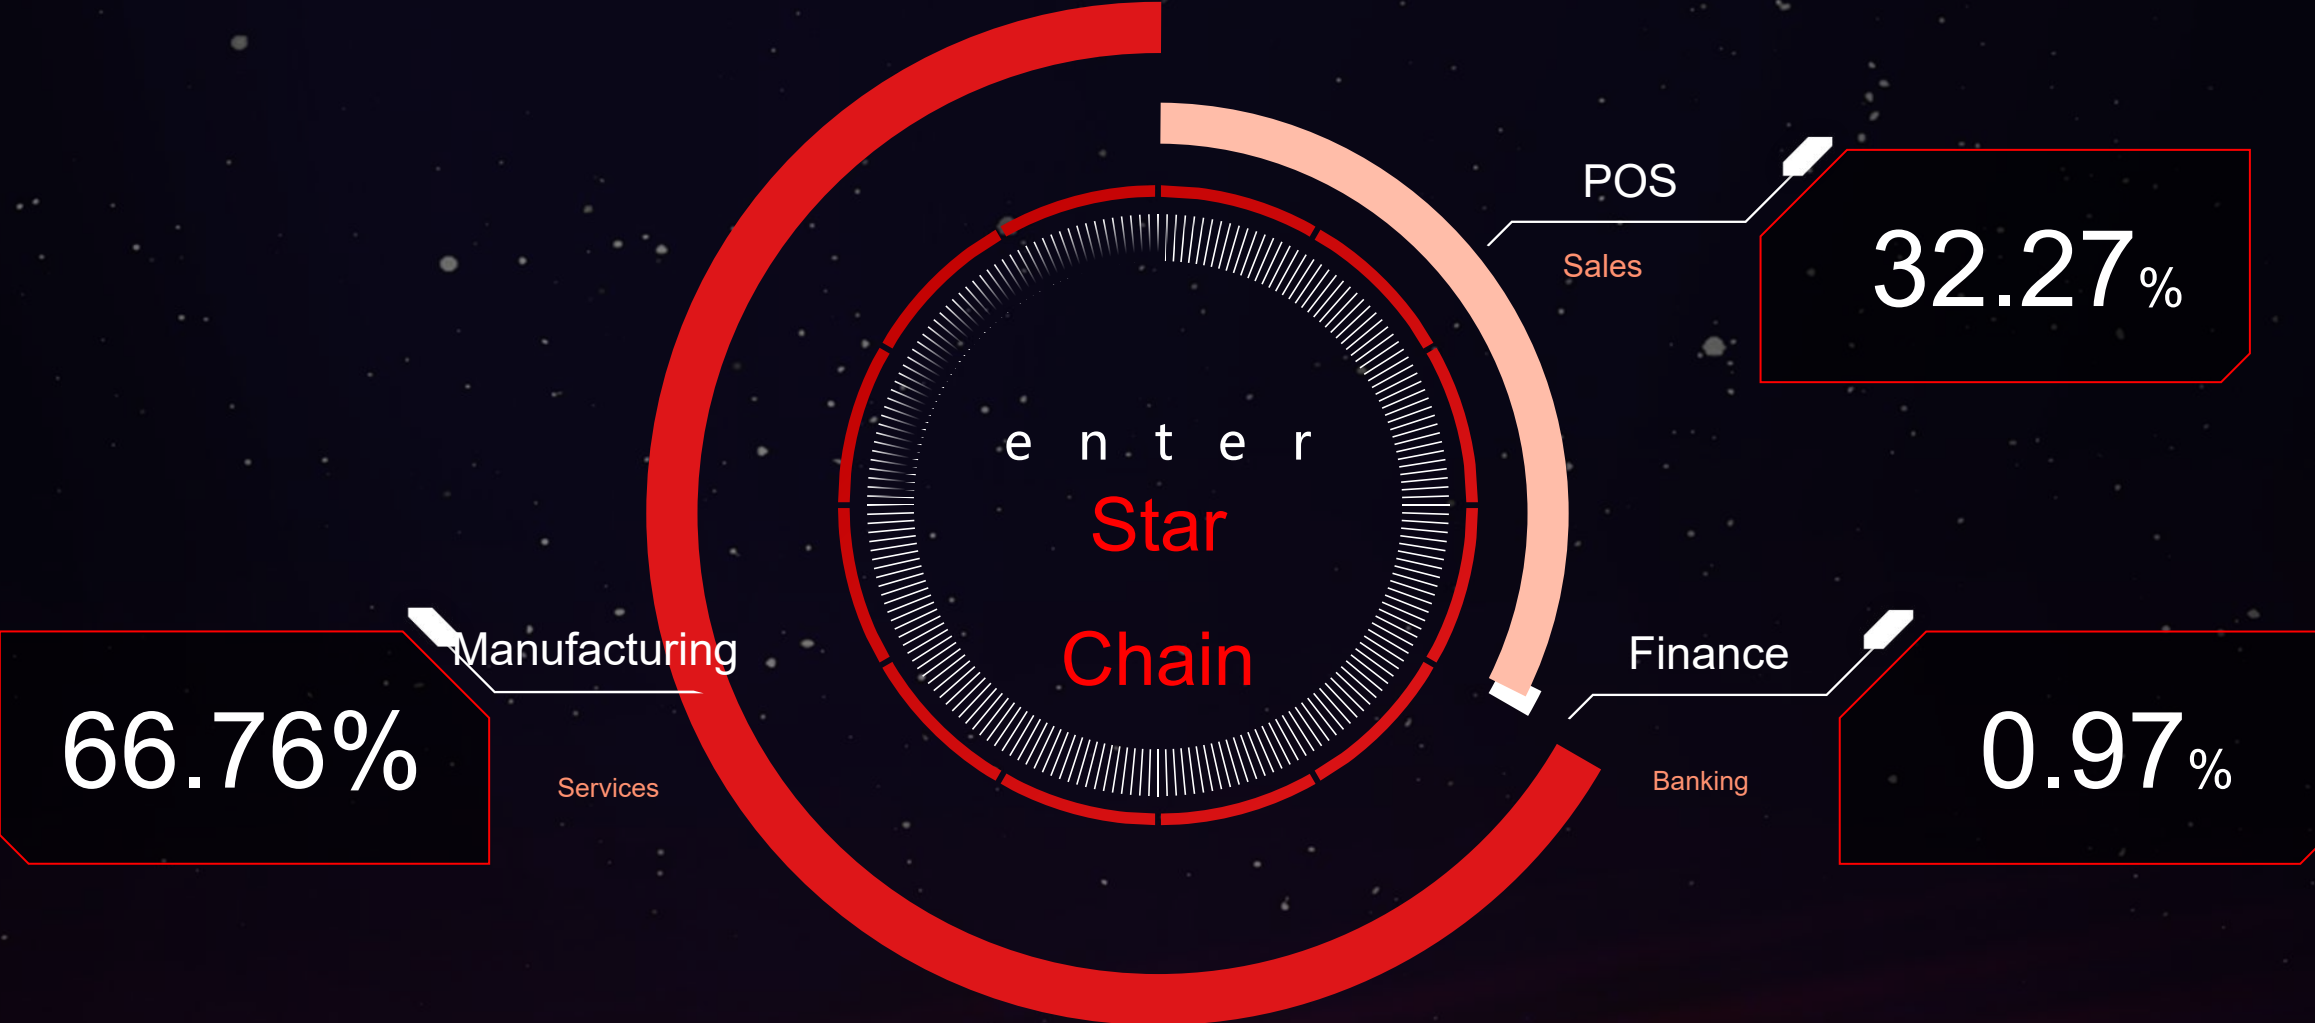

Star Chain

Our Proprietary new multidimensional blockchain that ties together any kind of data tracking.

Constellations

Multidimensional Chains that interlock all aspects of Global Commerce - Ready for anything!

Pairing

Proper Pairing

At the right time being paired with Bitcoin creates massive market recognition.

Your New Coin

We setup your coin, do logo design and set the proper supply volume and place within our exchange and trade platform

Building Trade Volume

Being paired with our trading coins creates market waves that trigger indicators that provide recognition in charts.

Virtual Space

Track Profitability from Anywhere

Market Making

Many Exchanges will not allow you to enter the platform until you have enough liquidity. If they do they charge massive fees to be listed.

Liquidity Pool

Our Asset Treasury is at the center of the virtual universe. We have a liquidity pool that allows credit facilities against approved coins. When pair with our gold back coins robotic trading creates market and profits.

LOGO

Your Coin

2020.04.18

We share in profits v.s. charge fees.

We build coins, brands, market recognition and profits

We are a mission society e.g. Church that creates funds projects

We are positioned to be a Global Leader

Because we get paid when you profit we are a strategic partner

Output

Turning Digital Value into the power of spending
